

CALL FOR PAPERS

ICNIT 2021
Aug 12-13, 2021
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNIT 2021 : International Conference on Nursing Informatics and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nursing Informatics and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nursing Informatics

Capacity building in poor resource settings

Care coordination and communication

Clinical decision support

Data exchange standards

Global health

Healthcare workflow and process efficiency

Improving informatics knowledge and skills of nurses, other health professionals, and other health workers

Intersectoral capacity building through information and communication technology

Meaningful use of HIT to improve nursing care and patient outcomes

Meeting information needs of nurses, other health professionals, and other health workers

mHealth

Nursing documentation systems

Nursing knowledge representation

Patient safety

Personal health information management tools

Practice-based knowledge generation

System implementation

System usability/computer-human interaction

Technology adoption/acceptance

Telehealth including distance education
