

CALL FOR PAPERS

ICNTREE 2021
Aug 12-13, 2021
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTREE 2021 : International Conference on Nuclear, Thermal and Renewable Energy Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear, Thermal and Renewable Energy Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Instrumentation & control	Conversion Process for Biomass and Biofuels
Reactor design, simulation & modeling	Ocean energy
Accidents, risk management and scenario Assessment	Concentrated solar power
Reactor physics	Carbon Sequestration
Thermal hydraulics	Desalination technologies
Wind mills and coupling to power grids	Water transport
Solar energy collection, systems & storage	Hydrogen production, transport and storage
Hydropower	Batteries & fuel cell technologies
Biofuels	Power conversion technologies
Geothermal energy	Energy storage control & demand
