

CALL FOR PAPERS

ICSERMA 2021
Aug 12-13, 2021
Venice, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSERMA 2021 : International Conference on Software Engineering Research, Management and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Engineering Research, Management and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software Agent Technology
Middleware Design Techniques
Reliability & Modeling Analysis
e-Government Engineering
Modeling with UML
Cost Modeling and Analysis
Component-Based Software
Engineering
Mobile/Wireless Computing
Computer & Software Engineering
Communication Systems and
Networks
Parallel & Distributed Computing
Technology Transfer
Data Mining and Knowledge
Recovery

Safety and Security Critical
Software
Business Process Reengineering &
Science
Artificial
Intelligence Reengineering, Reverse
Engineering
Design & Process Engineering &
Science
Design Patterns & Frameworks
Software Process Models Process
Management & Improvement
Software Architecture
Software Testing Techniques
Telecommunications
Economic and Financial Systems
Software Reuse and Metrics
Healthcare Engineering
Requirements Engineering
