

# CALL FOR PAPERS

**ICEMRESI 2021**  
**Sep 20-21, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMRESI 2021 : International Conference on Embodied Mobile Robots and Embodied Social Interaction is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Embodied Mobile Robots and Embodied Social Interaction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Embodied mobile robots  
Embodied artificial intelligence  
New artificial intelligence  
Embodiment in robotics  
Embodied vision for mobile robots  
Embodied computer vision for mobile robots  
Embodied social interaction for robots  
Embodied system-level architecture for mobile robots  
Embodied categorization for vision-guided mobile robots  
Embodied conversational agents  
Advantages

Applications  
Design of a control strategy  
Detection of people  
Challenges in embodied interaction  
New paradigms and perspectives  
Engineering applications  
Future directions  
Technological perspectives  
Future prospects and trends  
Recent developments  
Future technologies
