

# CALL FOR PAPERS

**ICESEM 2021**  
**Sep 20-21, 2021**  
**Lisbon, Portugal**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESEM 2021 : International Conference on Educational Statistics and Evaluation Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Educational Statistics and Evaluation Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Educational statistics  
Statistical methods in education  
Quantitative research methods in education  
Psychometric theory  
Applied multivariate analysis  
Causal modeling  
Item response theory  
Data systems, use, and privacy  
Educational research methods  
Assessment and technology  
Curriculum evaluation and design  
Interpreting evaluation results

Educational assessment systems  
Educational statistics  
Test structure analysis and advanced evaluation methods  
Psychological measurement  
Assessment for teachers  
Multivariate analysis of data and statistical inference  
Quantitative inquiry in education  
Educational statistical methods  
Assessing student performance  
Evaluating instructional techniques  
Educational research design  
Psychometric theory
