

CALL FOR PAPERS

ICASISP 2021
Sep 20-21, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASISP 2021 : International Conference on Acoustics, Speech, Image and Signal Processing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Acoustics, Speech, Image and Signal Processing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Audio and acoustic signal processing
Bioimaging and signal processing
Design and implementation of signal processing systems
Image, video and multidimensional signal processing
Industry technology Systems
Information forensics and security
Machine learning for signal processing

Multimedia signal processing
Sensor array and multichannel signal processing
Signal processing education
Signal processing for communications and networking
Signal processing theory and methods
Speech processing
Spoken language processing
