

# CALL FOR PAPERS

**ICAEFB 2021**  
**Sep 06-07, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEFB 2021 : International Conference on Aquatic Ecosystems and Freshwater Biodiversity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Aquatic Ecosystems and Freshwater Biodiversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Aquatic ecosystems	Regional development in aquatic ecosystems
Freshwater ecosystems	Contaminants of aquatic ecosystems
Underground water and aquifers	Urbanization in aquatic ecosystems
Climate change in aquatic ecosystems	Aquatic conservation
Mountain biodiversity and global change	Characteristics of aquatic ecosystems
Sustainable mountain development	Freshwater ecosystem health and health management
Ecosystem-based adaptation in aquatic ecosystems	Knowledge and management of freshwater ecosystems
Ecological restoration of aquatic and semi-aquatic ecosystems	Ecological risk assessment of freshwater environments
The effects of climate change and global warming on aquatic ecosystems	Conditions, trends, and direct drivers in freshwater services and inland water ecosystems
Mountain ecosystem management and monitoring	Institutions for managing shared waters
Monitoring and modeling aquatic ecosystems' response	Economic incentives for supply and demand management
Mountain ecosystem conservation and restoration	Wetland restoration and mitigation
Mountain ecosystem loss and biosphere collapse
