

# CALL FOR PAPERS

**ICCBNDDS 2021**  
**Sep 06-07, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBNDDS 2021 : International Conference on Carbon Based Nanomaterials for Drug Delivery Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Carbon Based Nanomaterials for Drug Delivery Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New synthesis strategies and formulations for carbon nanomaterials  
Functionalization requirements and methods for carbon nanomaterials as drug delivery systems  
Carbon-based hybrids and composites as drug delivery systems  
Targeted drug delivery with carbon-based theranostics

Design requirements for drug delivery proposes  
Toxicokinetics, nanotoxicity, and efficacy of carbon-based nanomaterials  
Drug release kinetics and transport mechanisms
