

CALL FOR PAPERS

ICCBSDD 2021
Sep 06-07, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBSDD 2021 : International Conference on Component-Based Software Design and Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Component-Based Software Design and Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Component-based software
Component standards
Component models
Component development for reuse
Component-based development process
and component lifecycle
Design principles
Differences from object-oriented
programming

Component-based software
architecture
New technologies
Component-based software
engineering for embedded systems
Aspect-oriented requirements
engineering for component-based
software systems
Component-based software testing
Component-oriented programming
Reliability prediction for
component-based software
architectures
