

CALL FOR PAPERS

ICECCEA 2021
Sep 06-07, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICECCEA 2021 : International Conference on Engineered Cementitious Composites for Engineering Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineered Cementitious Composites for Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineered cementitious composites
High performance engineered cementitious composites
Engineered cementitious composites for modern civil engineering
Engineered cementitious composites for structural applications
Engineered cementitious composites for engineering applications
The role of engineered cementitious composites in industry
Tensile and compression properties of engineered cementitious composites
Mechanical properties of engineered cementitious composites
Mechanical and dynamic mechanical analysis of engineered cementitious composites
Commercial and experimental engineered cementitious composites
High strength engineered cementitious composites
Engineered cementitious composite manufacturing and production

Recycling and reuse of engineered cementitious composites
Atomic structure and structural stability of engineered cementitious composites
Structural modeling of engineered cementitious composites
Optical and electronic phenomena in engineered cementitious composites
Engineered cementitious composite properties
Physical properties of engineered cementitious composites
Chemical resistance of engineered cementitious composites
Electrical properties of engineered cementitious composites
Thermal properties of engineered cementitious composites
Optical properties of engineered cementitious composites
Radiation properties of engineered cementitious composites
Mechanical properties of engineered cementitious composites
