

CALL FOR PAPERS

ICEMTA 2021
Sep 06-07, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMTA 2021 : International Conference on Ecosystem Management Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecosystem Management Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecosystem management technology
Remote sensing and ecosystem management
Natural resource management
Ecological and environmental engineering
Ecological development
Air quality and atmospheric pollution
Ecosystems and ecology
Ecosystems management
Environmental economics - sustainable services and systems
Environmental health
Environmental impact assessment
Environmental law - environmental policies
Environmental performance of enterprise

Global environmental change
Health aspects of waste water and solid waste management
Landscape and city planning
Life cycle management and sustainable production
Liquid waste treatment and management
Pollution control technologies
Solid waste management
Solid waste management and recycling
Technology and modeling for sustainable environment
Waste water management and aquaculture
Water engineering
Water resources management and water quality
Applications of aquatic ecosystems
