

# CALL FOR PAPERS

**ICFIIS 2021**  
**Sep 06-07, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFIIS 2021 : International Conference on Future Intelligent Information Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future Intelligent Information Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intelligent information systems  
Artificial and computational intelligence  
Distributed artificial intelligence  
Intelligent agents and multi-agent systems  
Intelligent techniques in bioinformatics, optimizations  
Intelligent systems: internet, software, energy, hybrid  
Computational nanotechnology  
Game and decision theories, planning

Neurocomputers  
Parallel computation  
Automation systems and control  
Robotics and autonomous robots  
Method engineering and meta-modeling  
UML and unified processes  
Empirical software engineering  
Extreme modeling and extreme programming
