

CALL FOR PAPERS

ICQPC 2021
Sep 06-07, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICQPC 2021 : International Conference on Quantum Pharmacology and Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Quantum Pharmacology and Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Quantum pharmacology
Molecular pharmacology
Small molecules in biology
Quantitative pharmacology
Quantum behavior of nanoparticles
Molecular quantum mechanics
Quantum theory and
nano-pharmacology
Quantum chemical methods
Applications of theory to
experiment

Quantum pharmacology for infectious
diseases
Study of drug molecular structure
Quantitative structure-activity
relationship study
Investigations of mechanisms of
drugs action
Pharmacophores study
De novo drug design
Study of protein-ligand
interactions for description of
reactions between drugs and
biomolecules
Investigations of primary
mechanisms of drugs action
