

CALL FOR PAPERS

ICRPTM 2021
Sep 06-07, 2021
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRPTM 2021 : International Conference on Rapid Prototyping, Tooling and Manufacturing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rapid Prototyping, Tooling and Manufacturing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|--|
| Rapid prototyping | Selective laser sintering |
| Computer-aided design and manufacturing | Agile software development |
| Rapid prototyping and production automotive spareparts | Cloud computing |
| Software development | Supply chain management |
| 3D printing | New product development |
| Ballistic particle manufacturing | Design for agile manufacture |
| Directed light fabrication | Agility in remote production |
| Direct-shell production casting | Quality assurance and six sigma |
| Fused deposition modeling | Empirical methods for assessing lean and agile processes |
| Laminated object manufacturing | Cross-disciplinary aspects of agility |
| Shape deposition manufacturing | Agile software development |
| Solid ground curing | Agile supply chain development |
| Stereolithography | Micro/nano manufacturing |
