

# CALL FOR PAPERS

**ICUITRIS 2021**  
**Sep 06-07, 2021**  
**Prague, Czechia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUITRIS 2021 : International Conference on Urban Information Technology and Regional Information Systems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Information Technology and Regional Information Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban information technology  
Urban technologies and the environment  
Infrastructural information technologies  
World wide web, broadband, and mobile broadband  
Locational and sensing technology  
Technologies for urban and spatial planning  
Urban and regional information systems  
Information technology and reconfigurations of urban space  
Impacts of information technologies on urban economies and politics  
New interactions between capital fixity and hypermobility  
Creative urban regions

Urban technology  
Sustainable urban technologies  
Green urban technologies  
Dynamic urban technologies  
Urban planning and GIS  
New paradigms and perspectives  
Engineering applications  
Future directions  
Technological perspectives  
Future prospects and trends
