CALL FOR PAPERS

ICDPS 2021
Sep 27-28, 2021
San Francisco, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDPS 2021 : International Conference on Digital Pathology Software is
the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Pathology Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital pathology
Digital pathology solutions
Digital pathology systems
Digital pathology image analysis
Opportunities and challenges
New paradigms and perspectives
Engineering applications
Future directions
Technological perspectives
Digital pathology environment

Digital imaging, virtual slides or virtual microscopy
Computer diagnosis
Technical performance assessment of digital pathology
Digital pathology software
Automatic image quality assessment in digital pathology
The future development of digital pathology technologies
Scanning and analyzing
Data management challenges
Financial considerations
Applications and benefits
