

CALL FOR PAPERS

ICAIET 2021
Sep 09-10, 2021
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIET 2021 : International Conference on Agricultural Infrastructure Engineering and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Infrastructure Engineering and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural engineering
Agricultural science
Agricultural infrastructure
Agricultural infrastructure improvement
Infrastructure vulnerability
Input based infrastructure
Resource based infrastructure
Physical infrastructure
Institutional infrastructure
Agricultural product processing
Agricultural productivity
Agricultural productivity growth
Livestock production

Processing of agricultural products
Water conservation and storage for crop irrigation and livestock production
Protecting the environment
Land and water resources
Construction of agricultural roads
Water reservoirs, warehouses and other structures
Pollution control at large farms
Developing new forms of biofuels from non-food resources
Algae and agricultural waste
Plant protection and fertilization
Plants, seeds and propagation materials
Waste management
Design of agricultural machinery, equipment, and agricultural structures
