

# CALL FOR PAPERS

**ICEBBI 2021**  
**Sep 09-10, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEBBI 2021 : International Conference on Environmental Biotechnology and Biological Intervention is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Biotechnology and Biological Intervention. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental biotechnology  
Microbes and metabolism  
Fundamentals of biological intervention  
Pollution and pollution control  
Contaminated land and bioremediation  
Aerobes and effluents  
Phytotechnology and photosynthesis  
Biotechnology and waste

Genetic manipulation  
Integrated environmental biotechnology  
Significance towards agriculture  
Food security  
Climate change mitigation and adaptation  
The MDGS  
Significance towards industrial biotechnology  
Applications and implications
