

CALL FOR PAPERS

ICAD 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAD 2021 : International Conference on Antiviral Drugs is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Antiviral Drugs. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Antiviral drug design
Antiviral drug development
Strategies in the design of antiviral drugs
Antiviral chemotherapy
Design of nucleoside analogs as potential antiviral agents
Design of anti-viral agents other than nucleoside analogues
Antivirals for high hazard viruses
Human retroviruses and anti-viral therapies

Epstein-Barr virus
Molecular targets for selective antiviral chemotherapy
Assay systems: testing of antiviral drugs in cell culture
Animal models as assay systems for the development of antivirals
Experimental aspects of antiviral pharmacology
Virus drug resistance
Risk-benefit analysis in drug research
Safety assessment of antiviral drugs
