

CALL FOR PAPERS

ICAIEPC 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAIEPC 2021 : International Conference on Advanced Energy and Power Conversion is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Energy and Power Conversion. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power system modelling and analysis
Computing and economics
FACTS and HVDC
Challenges in restructured energy systems
Power system control, operation, communications, SCADA
Power system relaying/protection
Energy management systems/distribution automation
Applications of power electronics to power systems

Power quality
Distributed generation and renewable energy sources
Electrical machines and drives
Utilisation of electrical energy
Modelling and control of machines
Fault diagnosis in machines and drives
Special machines
