

CALL FOR PAPERS

ICAPM 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPM 2021 : International Conference on Applied Physics and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applied Physics and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechatronics engineering
Modeling and design
Advanced manufacturing
Advanced motion control
Intelligent control
System integration
Sensors and actuators and networks
Robotics, mobile platforms,
unmanned vehicles
Automotive and transportation
systems
Vibration and noise control
Micro mechatronics
Mechatronics in energy systems
Fault detection and diagnosis in
mechatronics systems

Human-machine interface
Applications in systems and
engineering
Applied physics and engineering
Modeling, analysis and computation
Surfaces, interfaces and colloids
Imaging techniques, microscopy
Nano-sciences and technologies
Biophysics and biophysical
chemistry
Materials science and engineering
Applied solid state
physics/chemistry
Physical chemistry
Chemical physics
