

# CALL FOR PAPERS

**ICCA 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCA 2021 : International Conference on Computing in Astronomy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computing in Astronomy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Astronomy and computing  
Scientific software engineering  
Computational infrastructure  
Computational techniques used for astrophysical simulations  
Visualization

Data management, archives, and virtual observatory  
Data analysis, data mining and statistics  
Data processing pipeline and automated systems  
Semantics, data citation and data preservation
