

CALL FOR PAPERS

ICCEME 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEME 2021 : International Conference on Computer, Electronics and Mechatronics Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer, Electronics and Mechatronics Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustics and Noise Control	Biomedical Engineering
Advanced Energy Sources	CAD/CAM/CIM
Advanced Heat Pipe Technologies	Composite and Smart Materials
Advanced In-Space Propulsion & Power Concepts	Compressible Flows
Advanced Refrigeration and Air Conditioning	Computational Mechanics
Advanced Thermal Control Technologies	Computational Techniques
Alternate fuels	Cryogenics
Applied Mechanics	Dynamics and Vibration
Automation, Mechatronics and Robotics	Enabling Technologies for Lunar Surface Science
Automobiles	Network Performance
Automotive Engineering	Network Planning and Design
Biological Materials	Network Security
Biomechanics	Networking
