

CALL FOR PAPERS

ICDMED 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMED 2021 : International Conference on Diabetic Myelopathy and Epidemiology of Diabetes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Diabetic Myelopathy and Epidemiology of Diabetes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Physiology of the endocrine pancreas	Autoimmune Diabetes Mellitus
Alpha and Beta cells	Latent autoimmune diabetes of adults
Physiology of Diabetes Type 1	Idiopathic
Physiology of Diabetes Type 2	Prediabetes
Pathophysiology of hypoglycemia	Immune Intervention diabetes
Epidemiology and pathogenesis of diabetes	Paediatric diabetes
Diabetes and metabolic syndrome	Monogenic Forms of Diabetes
Diabetic myelopathy	Neonatal Diabetes
Pathogenesis of diabetes	Diabetes and Metabolism
Recent advances in genetics of diabetes	Clinical Diabetes and Diagnostic Approaches
The Role of Incretins in Insulin Secretion	Diabetes and its Complications
Diabetes: Type 1 and Type 2	Diabetes Management
Gestational Hyperglycaemia and Diabetes	Endocrinology: Patient-Oriented Case Management Discussions
