

# CALL FOR PAPERS

**ICEAMT 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEAMT 2021 : International Conference on Electrical Apparatus, Machines and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Apparatus, Machines and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Field problems, study, design and optimization  
Materials and technologies  
Low-voltage apparatus  
High-voltage apparatus  
Actuators and sensors

Power electronics  
Transformers, electrical machines and drives  
Electrotechnological processes and apparatus  
Renewable energy and power quality  
Informatics, computer science and communications
