

# CALL FOR PAPERS

**ICEEDS 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEDS 2021 : International Conference on Environmental Engineering, Design and Sustainability is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering, Design and Sustainability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

New technologies in water and wastewater treatment  
Municipal and industrial waste management  
Rainwater and snowmelt in urban areas  
Protection against flooding

Sustainable management of natural resources  
Forestry as part of environmental design  
Reclamation of degraded and devastated areas  
Sustainable energy management in the environment
