

CALL FOR PAPERS

ICHSTBDA 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHSTBDA 2021 : International Conference on Hardware/Software Technologies for Big Data Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hardware/Software Technologies for Big Data Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Big data - regression, analysis,
machine learning, and exploitation
Graphs and networks for big data
Distributed, and scalable systems
for big data
Application specific systems using
big data
Privacy, integrity, and security in
big data
Storage solutions for big data
Search and mining techniques in big
data

Hardware designs for big data
Big data privacy
Big data analysis
Big data search
Big data storage
Big data transfer
Big data visualization
