

CALL FOR PAPERS

ICIH 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIH 2021 : International Conference on Industrial Heating is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Heating. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Industrial heating
Fuel-based process heating systems
Electricity-based process heating systems
Steam-based process heating systems
Hybrid process heating systems
Fluid dynamics
Steady state heat transfer

Transient conduction
Fuel burning devices
Metals and alloys for high temperature applications
Electric resistance heating
High frequency heating
Concentrated heat sources
Temperature measurement
