

# CALL FOR PAPERS

**ICISIE 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISIE 2021 : International Conference on Information Security and Internet Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Information Security and Internet Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information Security  
Modeling and Analysis of  
Information Security  
Protocols  
Logical Analysis  
Performance Analysis  
Risk Analysis  
Threat and Attacks in Information  
Security  
Passive Attacks  
Active Attacks  
Trojan Horses  
Viruses  
Worms  
Denial of Service

Services of Information Security  
Authentication  
Access Control  
Secret Sharing  
Database Security  
Operating Systems Security  
Confidentiality  
Infrastructure for Information  
Security  
Information Security Standards  
Public Key Infrastructure  
Certification Authority  
Tools for Information Security  
Cryptography
