

CALL FOR PAPERS

ICMMME 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMME 2021 : International Conference on Mechanical, Materials and Manufacturing Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical, Materials and Manufacturing Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustics and Noise Control	Compressible Flows
Advanced and Digital Manufacturing	Computational Mechanics
Advanced Energy Systems	Computational Techniques
Advanced Materials	Controls
Aerodynamics	Design
Aerospace Engineering	Dynamical Systems
Applied Mechanics	Dynamics and Vibration
Automation, Mechatronics and Robotics	Energy Engineering and Management
Automotive Systems	Engineering Materials
Ballistics	Engineering Systems Design and Analysis
Bioengineering and Biomedical Engineering	Fatigue and Fracture
Biomechanics	Fluid Dynamics
Composite and Smart Materials	Fluid Mechanics and Machinery
