

# CALL FOR PAPERS

**ICMPM 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPM 2021 : International Conference on Mechanical Properties of Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Properties of Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Characterization  
Biological Materials  
Bulk Crystal Growth  
Characterization  
Computational Materials Science  
Corrosion and Environmental  
Effects  
Defects  
Devices  
Electrochemistry  
Electronic Materials  
Electronic, Optical, and Magnetic  
Properties  
Magnetic Materials  
Magnetic Properties

Manufacturing  
Materials for Energy and  
Environmental Applications  
Materials Processing  
Materials Theory  
Mechanical Behavior of Materials  
Mechanical Properties and  
Nanomechanics  
Nanopatterning  
Nanotechnology  
Optical and Photonic Materials  
Optoelectronics  
Organic Polymer Materials  
Phase Transformations  
Self-Assembly
