

# CALL FOR PAPERS

**ICNCSA 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCSA 2021 : International Conference on Nuclear Criticality Safety Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear Criticality Safety Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear criticality safety  
The prevention of nuclear and  
radiation accidents  
Criticality accident alarm systems  
Nuclear criticality safety analysis  
Nuclear criticality control

Nuclear criticality safety  
experiments  
The general criticality safety  
standards  
Criticality safety in processing  
plants  
Sensitivity-and uncertainty-based  
criticality safety validation  
techniques  
Limits for individual units and  
multiple units
