

# CALL FOR PAPERS

**ICOEVFO 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOEVFO 2021 : International Conference on Optimization in Electric Vehicle Fleet Operations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optimization in Electric Vehicle Fleet Operations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control optimization algorithms for  
zoning customer existent area  
Stable networks of fleets  
deployment  
Cooperative game theoretic  
algorithms to perform operations

Non-cooperative game theoretic  
algorithms for operations  
Combinatorial algorithms for  
cooperative fleet routing  
Logistics of fleets
