

CALL FOR PAPERS

ICPARNT 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPARNT 2021 : International Conference on Potential Advantages and Risks of Nanotechnology in Textiles is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Potential Advantages and Risks of Nanotechnology in Textiles. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanofabrics
Nanotechnology textiles
Nanoscopic fibers
Nanofibers
Applications of nanotechnology in textiles
Nanofibers and nanotechnology in textiles
Characterization techniques for nanotechnology applications in textiles
Nanotechnology applications in textiles
Potential advantages and risks of nanotechnology for textiles
Nanotechnology innovation and applications in textiles industry
Applications and future of nanotechnology in textiles
Nanotechnology in textiles finishment
Modification of cotton textiles with nanostructural zinc particles

The impact of nanotechnology on polyesters, polyamides and other textiles
Perspective on development of nanotechnology in textiles
Carbon nanofiber
Nanofiber seeding
Synthesis
Potential applications
Self-twisting
Sol-gel
Electrospinning
Applications
Textile manufacturing
Drug delivery
Tissue engineering
