

# CALL FOR PAPERS

**ICPPF 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPF 2021 : International Conference on Plant Protection and Fertilizers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant Protection and Fertilizers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

|   |  |
|---|--|
| Sustainability of crop production, processing and consumption | Fertilisers and chemicals                    |
| Agricultural biotechnology                                    | Irrigation and water management              |
| Field crops   | Plants, seeds and propagation materials      |
| Land and water management                                     | Plant protection and fertilization           |
| Technology and sustainable agriculture best practices         | Post harvest treatment                       |
| Private and public sectors collaboration in agriculture       | Nanotechnologies in agriculture              |
| technology development  | Food price volatility and market instability |
| Climate change impacts, mitigation and adaptation             | Animal conservation and sustainability       |
| Renewable energy sources and sustainable agriculture          | Livestock, dairy farming and small ruminants |
| Resiliency of agriculture crops with climate change           | Veterinary and feeding system                |
| Fruits and citrus   | Poultry farming                              |
| Greenhouses and horticulture                                  | Dairy farming methods and technologies       |
| Agricultural buildings  | Aquaculture and fisheries                    |
| Agricultural machinery  |  |
