

CALL FOR PAPERS

ICSPLIS 2021
Sep 20-21, 2021
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPLIS 2021 : International Conference on Software Product Lines and Industrial Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Product Lines and Industrial Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Introducing PLE to an organization,
migration to a product line
approach
Business ecosystems around product
line engineering
Processes and methods, e.g.,
combining PLE with DevOps and agile
practices
Scoping of product/solution
portfolios and assets
Architecture, design, and
implementation of product lines
Variability management across all
stages of the life-cycle

Quality and non-functional
properties in PLE and software
ecosystems
PLE tools and methods for guidance
and governance
Product line testing and
validation
Version and configuration
management
Disruptive innovations and their
effects on software product lines
