

# CALL FOR PAPERS

**ICTCMES 2021**  
**Sep 20-21, 2021**  
**Toronto, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTCMES 2021 : International Conference on Trends in Civil, Material and Environmental Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Trends in Civil, Material and Environmental Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil Sciences  
Computer applications and  
information technology  
Construction management  
Education in civil engineering  
Engineering management  
Engineering materials  
Engineering mechanics  
Environmental engineering  
Geotechnical engineering  
Geographical information system  
Geomatics engineering  
Highway / Transportation / Traffic  
engineering

Hydraulic and hydrology  
engineering  
Infrastructure engineering  
Natural hazards management and  
risk  
Occupational safety and health in  
civil engineering  
Remote sensing  
Structural engineering  
Sustainable development  
Urban Engineering  
Waste water engineering  
Water resources engineering  
Other topics related to civil  
engineering  
Material Sciences
