

# CALL FOR PAPERS

**ICGSRES 2021**  
**Oct 21-22, 2021**  
**Athens, Greece**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSRES 2021 : International Conference on Green, Sustainable and Renewable Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green, Sustainable and Renewable Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green energy  
Advances in green energy technologies  
Advantages and disadvantages of green energy  
The future of green energy systems  
Renewable energy  
Biofuels  
Bioenergy  
Green technology  
Energy conservation  
Sustainable energy policies  
Green economy

Energy and environment  
Nano environmental technologies  
Bioremediation  
Sustainable development  
Energy storage and management  
Power electronics and energy conversion  
Health monitoring  
Microgrid, smart grid, cloud systems  
Smartmeters, electronic for transmission technologies  
Embedded and autonomous systems  
Vehicular electronics and telematics
