

CALL FOR PAPERS

ICBBBM 2021
Oct 25-26, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBBBM 2021 : International Conference on Biodegradation, Biodeterioration and Biostabilization of Materials is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biodegradation, Biodeterioration and Biostabilization of Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microorganism involved in
biodegradation of materials
Analytical methods in
biodegradation, biodeterioration
and biostabilization
Industrial biocides
Chemical types of biostabilizers
Principles of selection of
biostabilizers
Biocide delivery
Effect of material properties on
biodeterioration
Surface and crystalline structure
Mechanisms and kinetics
Mechanisms of biodegradation and
biodeterioration
Mechanisms of biostabilization

Biomass adhesion
Resistance to biocide
Biocide leaching rate
Longevity of biostabilized
materials
Biodegradation, biodeterioration,
and biostabilization of industrial
products
Agricultural materials
Building materials
Coatings and paints
Cultural heritage
Dental materials
Electrical and electronic products
