

CALL FOR PAPERS

ICEMP 2021
Oct 25-26, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMP 2021 : International Conference on Environmental Monitoring Parameters is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Monitoring Parameters. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental monitoring
Ecological monitoring methods
Ecological monitoring and habitat mapping
Air quality monitoring
Soil monitoring
Water quality monitoring
Design of environmental monitoring programmes
Ecological monitoring and management
Chemical parameters
Biological parameters
Radiological parameters
Microbiological parameters
Populations parameters

Monitoring programmes
Environmental monitoring data management systems
Sampling methods
Grab samples
Semi-continuous monitoring and continuous
Passive sampling
Remote surveillance
Remote sensing
Bio-monitoring
Other sampling methods
Data interpretations
Environmental quality indices
Planning and programme design for ecotoxicological monitoring
