

CALL FOR PAPERS

ICANC 2021
Oct 06-07, 2021
Beijing, China

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICANC 2021 : International Conference on Advances in Nanomaterials Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Nanomaterials Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials chemistry
Nanochemistry of materials
Nanoscience and nanotechnology
Nanochemistry and materials
Organic materials in nanochemistry
Molecular machines
Nanomaterials for optoelectronics
Non-aqueous Sol-gel processed for the synthesis of oxidic nanoparticles
Recent results on nanocrystals
Peptide nanotubes and related aspects
Photo/electrochemistry
Recent results on nanowires and nanotubes
Growth of nanoparticles

Nanoscale electronic phase separation in oxides
Nanoelectrodes: batteries
Molecular electronics
Dendrimers
Recent developments in the synthesis, properties and assemblies of nanocrystals
Nanotubes and nanowires
Growth of nanocrystals in solution
Nanostructured materials
Nanostructured hybrid materials for supercapacitors
Supramolecular approaches to molecular machines
Nanomaterials, nanochemistry and smart materials
Functional nanomaterials of organized structure
Advanced ceramics and composites
