

# CALL FOR PAPERS

**ICNESC 2021**  
**Oct 06-07, 2021**  
**Beijing, China**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNESC 2021 : International Conference on Nanomaterials for Energy Storage and Capacitors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanomaterials for Energy Storage and Capacitors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanomaterials for energy storage  
and saving applications  
Nanomaterials design and synthesis  
Electrode materials binders and  
electrolytes for batteries  
Dual-ion batteries  
Capacitors and supercapacitors

Fuel cells  
Thermal energy storage  
Chemical energy storage  
Performance, lifetime, and  
degradation studies
