

CALL FOR PAPERS

ICEID 2021
Oct 28-29, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEID 2021 : International Conference on Eco-Industrial Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Eco-Industrial Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Eco-industrial development
Eco-industrial development and economic development
Resource conservation and recovery
Eco-industrial networking
Resource efficiency
Cleaner production
Greening of buildings or production sites
Environmental management systems
Ecological site planning
Instruments and technologies for eco-industrial development
Industrial ecology
Industrial symbiosis
The design for the environment

Definitions and concepts of eco-industrial networks and similar structures
Preconditions for eco-industrial networking
Stakeholders of eco-industrial development
Consultancy in eco-industrial development: point of entry
Development of eco-industrial networks and similar structures
Information and knowledge transfer within these structures
Information systems for eco-industrial networking
Trust building within these structures
Management of eco-industrial networks and similar structures
Cleaner production and environmental management of industrial estates
Eco-industrial networking institutions
Sustainability of these structures
Financing concepts of eco-industrial networks and similar structures
