

CALL FOR PAPERS

ICFME 2021
Oct 28-29, 2021
Lisbon, Portugal

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFME 2021 : International Conference on Fundamentals of Metallurgical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fundamentals of Metallurgical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Non ferrous metal material
Iron and steel
High strength alloys
Materials processing and handling
Composites
Micro/Nano materials
ceramic
Optical, Electronic, Magnetic
materials
Carbon based materials
Metallurgical science
Metallurgical fundamentals and
techniques
New functional materials
Building materials

New energy materials
Environmental friendly materials
Earthquake materials and design
Biomaterials
Smart and intelligent materials
Intelligent materials systems
Polymeric materials
Thin films
Mechanical behavior and fracture
Tool testing and evaluation of
materials
Processing technology for
functional materials
Function test and evaluation
technology for material analysis
