

CALL FOR PAPERS

ICNCN 2021
Oct 07-08, 2021
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNCN 2021 : International Conference on Neurolinguistics and Cognitive Neuroscience is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Neurolinguistics and Cognitive Neuroscience. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neurolinguistics

Evolution of human language
Human communication
Neural basis of language
Neural mechanisms of comprehension, production, and acquisition of language
Localizations of language processes
Methods and techniques of neuroimaging (EEG, MEG, fMRI, PET)

Language in normal ageing and in dementia (AD, PD, MCI, PPA, FTD)
Language in the right hemisphere
Language pathology
Experimental designs
Aphasias (diagnosis, symptoms, therapy), Broca's aphasia, Wernicke's aphasia
Aphasia and syntactic processing
Dyslexia and stuttering
