

# CALL FOR PAPERS

**ICWTTM 2021**  
**Oct 07-08, 2021**  
**New York, USA**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWTTM 2021 : International Conference on Wastewater Treatment Technologies and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wastewater Treatment Technologies and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental engineering  
Water supply and treatment  
Wastewater treatment  
Wastewater treatment technologies  
Water reclamation  
Water cycle  
Phase separation  
Sedimentation, filtration and oxidation  
Wastewater treatment plants  
Tertiary treatment  
Industrial wastewater treatment plants  
Agricultural wastewater treatment plants  
Wastewater management systems

Industrial wastewater  
Leachate treatment plants  
Solid waste management  
Environmental impact assessment and mitigation  
Air pollution management  
Environmental protection agency  
Protecting the environment by reducing waste and pollution  
Improving environmental conditions  
Technologies and processes that control pollution  
Prevent, control and remediate environmental hazards  
Waste treatment  
Site remediation  
Pollution control technology
