

# CALL FOR PAPERS

**ICETSP 2021**  
**Oct 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETSP 2021 : International Conference on Environmental Technologies and Sustainable Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Technologies and Sustainable Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental technologies  
Nano environmental technologies  
Clean-air technology  
Waste recycling technologies  
Renewable energy systems and technologies  
Water purification technologies  
Air purification technologies  
Sewage treatment  
Environmental remediation technologies

Solid waste management  
eGain forecasting  
Energy conservation  
Preservation and improvement of soil and water resources, water and air quality  
Non-point source pollution and site mitigation  
Ecosystem restoration  
Soil health and erosion mitigation  
Alternative and clean power  
Environmental pollution management
