

CALL FOR PAPERS

ICWES 2021
Oct 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWES 2021 : International Conference on Waste to Energy Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Waste to Energy Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Waste to energy systems
Waste to energy conversion
technology
Energy supply and waste management
Air quality and residue management
considerations
Environmental impacts of waste to
energy
Waste to energy plants

Thermal and non-thermal
technologies
Modeling waste to energy systems
Basic combustion system
Waste composition methodology
Gasification-based waste to energy
units
Waste flow control
