

# CALL FOR PAPERS

**ICSOCFT 2021**  
**Nov 11-12, 2021**  
**Tokyo, Japan**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSOCFT 2021 : International Conference on Second-Order Cybernetics and Future Trends is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Second-Order Cybernetics and Future Trends. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Second-order cybernetics
- New cybernetics
- Cybernetic technology
- Reflection on first order cybernetics
- Technology
- New perspectives
- Applications
- Approach, theories and epistemology
- Organizational cybernetics
- Sociocybernetics
- Autonomy
- Self-consistency
- Self-referentiality

- Learning and cognition
- Math and computation
- Management
- Design
- Second order cybernetics and constructivism
- Self-organizing capabilities of complex systems
- Artificial neural networks
- Living systems
- New robotic approaches
- Reflexive understanding
- Political communication
- Social dimensions of cognitive science
- Sustainable development
