

CALL FOR PAPERS

ICEEE 2021
Nov 04-05, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEE 2021 : International Conference on Environment and Electrical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environment and Electrical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Renewable energy sources
Solar energy
Photovoltaic cell technology
Hydro energy
Wind energy, wind turbines
Ocean energy: tidal and wave
Biomass
Biofuels
Energy Harvesting
Energy storage
Hydrogen based sources
Power Systems
Power Quality

Smart Grids
Design, Control and Management
Protection
RAM (Reliability,
Availability, Maintainability)
Grid integration of renewable
energy sources
Management of MV/LV distribution
grids with Distributed/Renewable
Generation
Components
Generators for wind turbines
Hydro turbines
Electrical generators
Power electronic converters for
renewables
Hydrogen combustion
Electricity Market
